Founded in 2014, Approval Team Nigeria is a company which has dedicated itself to facilitate your access to African Markets. Since then we have been assisting, manufacturers, laboratories and consultants to obtain a type approval certificate for their devices.

Our mission has always been full satisfaction of our partners throughout the process of your devices homologation at a competitive price, good quality services and a short lead time, based on each local regulatory agency norms.

Our team is made of professional and experienced telecommunication engineers, Project managers, and Type Approval Consultant and Marketing Officer working together as a team to offer a professional efficient and reliable service in Africa. Our core values are customer satisfaction, integrity, passionate, pro activity and respect of the leadtime. Moreover, our weekly updates for all your ongoing projects will let you have a precious insight on what is done effectively for your type approval application.

ATN has a wide network of +45 countries and has assisting companies to obtain more than 2000 certificates since its foundation.

Becoming the leader and a reference in telecommunications type approval certification and homologation services in Africa is our goal for the next few years. We believe that for Africa type approval, Everyone needs an expert to assist.

Approval Team Nigeria is your Type approval expert in Africa !!!
